

SENATOR HARDING OFFERS TO DEBATE LEAGUE OF NATIONS

Challenges Heckler to Take Platform and Debate

ONE MAN ATTEMPTED TO SPEAK FOR WORLD

BALTIMORE, Md., Sept. 27.—Before a crowd which taxed the capacity of the Baltimore armory, and which applauded enthusiastically, Senator Wm. C. Harding outlined tonight his policy for sound business and rehabilitated American industry. When Senator Harding arrived the audience arose and cheered two minutes.

The address was the fourth today, the senator making three speeches in Pennsylvania from his special train. In Baltimore he was received by a cheering throng at the station. Introduced by General Felix Agnus, publisher of the Baltimore American, Senator Harding set his second tumultuous demonstration when he arose. Early in the address Senator Harding had his first experience with heckling when a man arose and asked whether he had "scrapped" the league of nations. The nominee's reply was an unexpected challenge to debate the league with his interrogator and the crowd expressed its approval.

The senator was speaking of one-man government. "I want to ask," said the heckler, "whether you have scrapped the league and whether you stand for Senator Johnson in his position."

Cries of "put him out" mingled with demands that the nominee answer the question. "I understand what prompted that question," said the senator. "and I want to say that if I were in favor of one man government, then I should be able myself to answer. I don't know whether I should turn my attention from these thousands to address myself to you personally, but if you will come to this platform I will divide my time with you and discuss this question."

A tumult followed during which the heckler disappeared from the gallery. He did not appear on the platform; however, and Senator Harding went on with his address.

More cheers followed this declaration but the senator's voice did not carry to the farthest corners of the auditorium.

Vacancies began to appear in the seats in the distant galleries. After his address the nominee replied more at length to the heckler's question about the league of nations, saying: "I might have answered him more extensively. He wanted to know whether I had promised to scrap the league. The one great failure to make the most of America's leadership in the world was due to the fact that one man attempted to speak, not only for America, but for the remainder of the world as well. I shouldn't do that."

"Old people, women and children were beaten with heavy sticks or iron rods and also with wet ropes; prisoners were forced to put their feet on fire and nails were thrust under their finger nails."

"Youths were hung by the hair and plunged into water up to their mouths, men were attached to carriages in the place of horses and then killed; mothers of the rebels were thrown upon the fire, old men had their teeth pulled; women were violated."

BOSTON, Sept. 27.—Three Boston banks were forced today to invoke the law requiring 90 day's notice of withdrawals from the savings departments as protection for depositors, alarmed over local banking conditions, as a result of the closing of the five banks in two months and the Ponzi financial fiasco.

Officers of the Tremont Trust company, the Fidelity Trust company and the Dorchester Trust company asserted that their institutions were solvent but lack ready cash to meet heavy demands made upon them by depositors.

The bank officers were joined by Governor Coolidge, Bank Commissioner J. A. Allen and city officials in statements assuring the public that the Boston banks were in sound condition. At all three banks which suspended payments in their savings departments it was announced that business in the commercial departments would continue as usual. Action suspending payments in the savings departments was taken this forenoon after hundreds had crowded the banking offices to withdraw their accounts.

Mr. Allen said that the case of the Fidelity Trust company was the only one discussed and added that nothing was said about the several banking institutions affiliated with that bank. He expressed belief that the general bank situation was improving.

COX TELLS FARMERS LEAGUE OF NATIONS IT THE ONE PANACEA

Would Stabilize the Foreign
and Domestic
Markets

MUST STOP MAINTAINING LARGE ARMAMENTS

GRAND ISLAND, Nebr., Sept. 27.—Interest of American farmers in having European markets for their surplus by establishment of the league of nations was the basis of league arguments given by Governor Cox today thru the Nebraska corn belt. The league, he argued, would aid agriculturists by stabilizing foreign and domestic markets, by increasing European credit and purchasing power and by turning armament funds into commerce abroad and development of natural resources at home.

"We are not going to have a settled condition in the world until the nations agree to stop wasting their resources in the building and maintenance of large armaments," the governor said. "If there is a banker here I would like for him to tell his neighbors what the result will be in the world if the nations of Europe cannot pay their debt."

"They won't have credit and they cannot have credit unless they stop maintaining large armaments, and if they don't" have credit they can't buy the surplus products of America. That is one reason why cattle are not bringing the prices they did a year ago, why hogs have come down in price. Why the price of wheat, corn and all of the surplus commodities of America have declined in price."

Department of justice officials will file the governments views in the District of Columbia supreme court tomorrow morning. It was understood a counter proposal for sale of the packer interests would be embodied in their objection to the plan before the court. The case will be heard finally October 7.

Proposals of the packers provided transfer of their stock yard interests estimated to involve about \$400,000 to Frederick H. Prince & Co., Boston bankers. This suggestion was said to be regarded by government lawyers as meaning concentration of control to a greater degree than existed under the packer management.

The nature of the counter suggestion to be presented by the government was not disclosed. Mr. Prince under an option on the packer stockholding was obligated to organize a holding corporation, its stock to be offered farmers and producers and traders in livestock. The option provided also that interests within the holding corporation discontinue in the management of the stock yards.

TWENTY THOUSAND EX-SERVICE MEN IN BIG PARADE

Three Hundred Thou- sand Cheer March- ing Men

EXPECT TO COLLECT RAIN INSURANCE

CLEVELAND, O., Sept. 27.—A parade of 20,000 ex-service men, witnessed by approximately 300,000 people, including about 50,000 out of town visitors closed the first day of the second annual convention of the American Legion today. The day started with the convention being called to order by Commander Franklin D'Olier. After routine reports, the credentials committee and the committee on permanent rules and regulations began deliberations. The report of the permanent committee on rules and regulations which recommended the adoption of the unit rule of voting was defeated when a minority report asking its rejection was adopted.

The credentials committee had for its principal question the matter of delegations from states and territories its report recommended that each department be given five delegates at large and one additional delegate for each 1,000 members or fraction thereof. Late today the correct voting strength of the convention had not been determined.

A feature which enlivened the session came when Col. J. R. McQuigg, commander of the department of Ohio replying to the address of welcome by Mayor W. S. Fitzgerald stated France was one of the most loyal friends of the American Legion. Cheers started and cries for Francis E. Drake, commander of the Legion Post No. 1, brought him to his feet. Then everybody arose and cheered.

Just before adjournment the National commander asked whether any civil war veterans who were members of the legion to come forward.

M. W. Woods of Idaho was given a seat on the stage.

Rain which began about noon threatened to interfere with the parade but the grand marshal announced that the parade would take place. The insignia of each division was in evidence, practically everybody marching in uniform. There was also several hundred Americans in the uniform of Canada, England and France. His coat of arms was a Kiltie band.

As a result of the rain the American Legion expects to collect \$15,000 in rain insurance. To collect the insurance it was necessary for two inches of rain to fall during the day. The weather bureau reported that the rainfall was 27-100 of an inch. Some members of the Rainbow division suggested that \$15,000 was the pot of gold sometimes mentioned as being buried at the end of the rainbow.

Every train arriving today brought many members of the legion.

Philadelphia sent 125 members in three box cars, painted as the cars in France "Hommes Forts Chevaux-5."

ONE MAN ATTEMPTED TO SPEAK FOR WORLD

BALTIMORE, Md., Sept. 27.—Before a crowd which taxed the capacity of the Baltimore armory, and which applauded repeatedly, Senator W. G. Harding outlined tonight his policy for sound business and rehabilitated American industry. When Senator Harding arrived the audience arose and cheered two minutes.

The address was the fourth today, the senator making three speeches in Pennsylvania from his special train. In Baltimore he was received by a cheering throng at the station. Introduced by General Felix Agnus, publisher of the Baltimore American, Senator Harding got his second tumultuous demonstration when he arose.

Early in the address Senator Harding had his first experience with heckling when a man arose and asked whether he had "scrapped" the league of nations. The nominee's reply was an unexpected challenge to debate the league with his interrogator and the crowd expressed its approval.

The senator was speaking of one-man government.

"I want to ask," said the heckler, "whether you have scrapped the league and whether you stand for Senator Johnson in his position."

Cries of "put him out" mingled with demands that the nominee answer the question.

Offers to Debate Question

"I understand what prompted that question," said the senator, "and I want to say that if I were in favor of one man government, then I should be able myself to answer. More cheers followed this declaration but the senator's voice did not carry to the farthest corners of the auditorium.

Vacancies began to appear in the seats in the distant galleries.

After his address the nominee replied more at length to the heckler's question about the league of nations, saying:

"I might have answered him more extensively. He wanted to know whether I had promised to scrap the league. The one great failure to make the most of America's leadership in the world was due to the fact that one man attempted to speak, not only for America, but for the remainder of the world as well. I shouldn't do that."

SERBIANS GUILTY OF ATROCITIES IN MONTENEGRO

Brutal Violence and Abuse Are Recorded

MEN ATTACHED TO CARRIAGE, THEN KILLED

WASHINGTON, Sept. 27.—(By The Associated Press.)—Terrible tortures and hardships were inflicted upon Montenegrins by the Serbian army of occupation, according to an official report of a commission of investigation appointed by the Montenegrin foreign office after withdrawal of the Serbian troops. The commission charges that crimes committed in Montenegro were ordered by the Serbian authorities and precisely by high officers such as General Milosh Nislovitch, chief commander of the troops of occupation.

The report avers that the purpose was either to force those persecuted to declare allegiance to the Serbian king or to obtain information about their male relatives who had recovered.

Many Abuses Recorded.

"Brutal violence and abuses are recorded," says the report. "For instance owners of homes were compelled to set fire to their dwellings and then the soldiers pushed them among the flames."

"Women and children shut in their homes were submitted to the additional torture of being thrown in, they put cats under their skirts of women that were then sewed around their limbs. The animals then were whipped causing awful pain to the victims."

"Old people, women and children were beaten with heated sticks or iron rods and also with wet ropes; prisoners were forced to put their feet on fire and nails were thrust under their finger nails."

"Youths were hung by the hair and plunged into water up to their mouths, men were attached to carriages in the place of horses and then killed; mothers of the rebels were thrown upon the fire, old men had their teeth pulled; women were violated."

DOES NOT REFLECT UN SOUND CONDITIONS

Several Factors Working to Reduce Previous Excesses Waiting for Break.

Washington, Sept. 27.—The decided reduction in size of the favorable trade balance of the United States as evidenced in the foreign trade during August has been expected two months and does not reflect an unsound economic condition in the nation according to a summary of trade conditions tonight by O. P. Hopkins acting director of foreign and domestic commerce.

Several factors have been working to reduce the previous excess of exports which fell from \$114,000,000 in July to \$65,000,000 in August, he said. Foreign countries as well as America have continued to have awaiting a general break in commodity prices and orders have been withheld. Readjustment of price levels here added would undoubtedly mean increases in overseas shipments.

Boston Banks Forced Invoke Ninety Day Law

BOSTON, Sept. 27.—Three Boston banks were forced today to invoke the law requiring 90 day's notice of withdrawals from the savings departments as protection for depositors, alarmed over local banking conditions, as a result of the closing of the five banks in two months and the Ponzi financial fiasco.

Officers of the Tremont Trust company, the Fidelity Trust company and the Dorchester Trust company asserted that their institutions were solvent but lacked ready cash to meet heavy demands made upon them by depositors.

The bank officers were joined by Governor Coolidge, Bank Commissioner J. A. Allen and city officials in statements assuring the public that the Boston banks were in sound condition.

At all three banks which suspended payments in their savings departments it was announced that business in the commercial departments would continue as usual. Action suspending payments in the savings departments was taken this forenoon after hundreds had crowded the banking offices to withdraw their accounts.

The Fidelity Trust company will be taken over by state bank commissioner at 9 o'clock tomorrow morning, according to a statement tonight by Commissioner Allen.

The commissioner made the announcement after a conference with officers of the trust company and others.

Mr. Allen said that the case of the Fidelity Trust company was the only discussed and added that nothing was said about the several banking institutions affiliated with that bank. He expressed the belief that the general bank situation was improving.

COX TELLS FARMERS LEAGUE OF NATIONS IT THE ONE PANACEA

Would Stabilize the Foreign and Domestic Markets

MUST STOP MAINTAINING LARGE ARMAMENTS

GRAND ISLAND, Neb., Sept. 27.—Interest of American farmers in having European markets for their surplus by establishment of the league of nations was the basis of league arguments given by Governor Cox today thru the Nebraska corn belt. The league, he argued, would aid agriculturists by stabilizing foreign and domestic markets, by increasing European credit and purchasing power and by turning armament funds to commerce abroad and development of natural resources at home.

"We are not going to have a settled condition in the world until the nations agree to stop wasting their resources in the building and maintenance of large armaments," the governor said. "If there is a banker here I would like for him to tell his neighbors what the result will be in the world if the nations of Europe cannot pay their debt."

"They won't have credit and they cannot have credit unless they stop maintaining large armaments, and if they don't" have credit they can't buy the surplus products of America. That is one reason why cattle are not bringing the prices they did a year ago, why hogs have come down in price. Why the price of wheat, corn and all of the surplus commodities of America have declined in price."

MAKE TENTATIVE PLANS TO ORGANIZE BOOM COMMITTEE

Will Make an Endeavor to Stimulate Building

BUILDING PRICES MUST COME DOWN

CHICAGO, Sept. 27.—Tentative plans for an organization to promote a building boom were laid today when architects, labor men, contractors and engineers met at the call of General R. C. Marshall, Jr., formerly in charge of army construction.

"Building prices must decline materially," said Adolph Kramer, president of the Chicago Realty Board, "and building material men must bring about lower prices or pass out of existence. It's a question of survival under these circumstances. I can see no logical reason why prices should not be shaved to the raw."

"When they do come down building will be resumed and not until then to any great extent."

DISPOSAL PLAN FOR STOCK YARDS MAY BE REJECTED

Government Does Not Favor Plan of Big Five Packers

WILL SUBMIT COUNTER PROPOSAL

WASHINGTON, Sept. 27.—(By The Associated Press.)—The government may reject almost entirely the proposal of the "big five" Chicago meat packers for disposition of their stock yard interests as required by the voluntary court decree of dissolution.

Department of justice officials will file the government's views in the District of Columbia supreme court tomorrow morning. It was understood a counter proposal for sale of the packer interests would be embodied in their objection to the plan before the court. The case will be heard finally October 7.

Proposals of the packers provided transfer of their stock yard interests estimated to involve about \$40,000,000 to Frederick H. Prince & Co., Boston bankers. This suggestion was said to be regarded by government lawyers as meaning concentration of control to a greater degree than existed under the packer management.

The nature of the counter suggestion to be presented by the government was not disclosed. Mr. Prince under an option on the packer stockholding was obligated to organize a holding corporation, its stock to be offered farmers and producers and traders in livestock. The option provided also that interests using the yards should be represented in the holding corporation directorate and in the management of the stock yards.

Springfield, Ill., Sept. 27.—A mistake in Ogle county's total vote for governor in the Republican primary, reported to the secretary of state late this afternoon promised a further delay in the state canvass. It was reported to the secretary that the county clerk of Ogle county had neglected to include the woman's vote for John G. Oglesby. Revised figures being forwarded will increase his total 800 votes. It was said in the secretary's office. Len Small's lead however, his lead says is over 4,000. Because of this revision and the delay in Cook county the official canvass of votes will not be reached probably until next week it was announced.

The department of agriculture has ruled that provisions of the pure food act will be held to have been violated in case such drinks are sold under trade names which lead the purchaser to believe they contain the edible portion or juice of the fruit named.

SAYS WHITE SOX WERE FIXED TO THROW SERIES

Billy Maharg Says They Were to Receive \$100,000

DOUBLE CROSSED BY ABE ATTELL

CHICAGO, Sept. 27.—President Charles Comiskey of the Chicago American League club tonight received word that Billy Maharg, former boxer and a business partner of Bill Burns, ex-major league batter, had told newspapermen in Philadelphia that White Sox players had approached him before the world's series last year and told him it had been "fixed" for Cincinnati to win.

President Comiskey immediately telegraphed Maharg asking him to come here and present his evidence to the Cook grand jury. Comiskey said he would give Maharg \$10,000 if his charges were proved.

"Furthermore I'll see that every player implicated is fired from organized baseball forever," he said.

Maharg's statement, as received by Comiskey, said Eddi Cicotte, Chicago pitcher who lost two games in the series, approached him with an offer of aid saying "Joe could furnish players to throw the games."

The White Sox were promised \$100,000 for throwing the series according to Maharg, but received only \$10,000, Abe Attehl, former featherweight boxing champion "double crossing" them.

ALFRED NAGLE WAS RESPONSIBLE FOR NIKOLAI LENINE

Recommended Him to Germany as Extreme Radical

WASHINGTON, Sept. 27.—(By The Associated Press.)—Alfred Nagle, diplomatic representative of the Latvian government, ordered deported from New York, was responsible for the selection of Nikolai Lenine to head the Bolshevik revolution in Russia, according to reports in the hands of the state department. These reports state that sometime during the spring of 1917 Nagle was employed by von Bethmann-Hollweg, then imperial general chancellor to go to Switzerland and there pick out the best revolutionists to send into Russia to overthrow the czar.

In a 300 word report Nagle informed the chancellor that Lenine was the most radical leader, but urged the Germans not to use him. Lenine, however, was sent by the Germans to Russia on the now famous sealed train.

BEARDSTOWN MAN PLAYS 'POSSUM

BEARDSTOWN, Sept. 27.—Ability at playing "possum" is all that saved Charles Merritt, a taxi-driver of this city, he believes from death at the hands of a gunman, early yesterday morning. Directed by a stranger to take him to Rushville near here, Merritt was stooped late at the point of a revolver, relieved of all his money, and ordered into a heavy woods and shot. The bullet entered the back of his neck, and came out the side. Merritt retained consciousness and directly afterward felt the man bending above him in the dark, feeling him. Then the man straightened up, and Merritt gritted his teeth as kick after kick struck him in the side.

The man leaned over again, and then, apparently convinced that the taxi-driver was dead, ran to the road side and made away in the automobile.

Central Illinois authorities have been asked to watch Mr. Merritt.

TWENTY THOUSAND EX-SERVICE MEN IN BIG PARADE

Three Hundred Thousand Cheer Marching Men

EXPECT TO COLLECT RAIN INSURANCE

CLEVELAND, O., Sept. 27.—A parade of 20,000 ex-service men, witnessed by approximately 200,000 people including about 50,000 out of town visitors closed the first day of the second annual convention of the American Legion today. The day started with the convention being called to order by Commander Franklin D'Olier. After routine reports, the credentials committee and the committee on permanent rules and regulations began deliberations.

The report of the permanent committee on rules and regulations which recommended the adoption of the unit rule of voting was defeated when a minority report asking its rejection was adopted.

The credentials committee had for its principal question the matter of legations from states and territories. Its report recommended that each department be given five delegates at large and one additional delegate for each 1,000 members or fraction thereof.

Late today the correct voting strength of the convention had not been determined.

A feature which enlivened the session came when Col. J. R. McQuigg, commander of the department of Ohio replying to the address of welcome by Mayor W. S. Fitzgerald stated France was one of the most loyal friends of the American Legion. Cheers started and cries for Francis E. Drake, commander of the Legion Post No. 1, brought him to his feet. Then everybody arose and cheered.

Just before adjournment, the National commander asked that any civil war veterans who were members of the legion to come forward.

M. W. Woods of Idaho was given a seat on the stage.

Rain Did Not Stop Parade.

Rain which began about noon threatened to interfere with the parade but the grand marshal announced that the parade would take place. The insignia of each division was in evidence, practically everybody marching in uniform. There was also several hundred Americans in the uniforms of Canada, England and France. As the parade closed a Kiltie band.

As a result of the rain the American Legion expects to collect \$15,000 rain insurance. To collect the insurance it was necessary for two-tenths of an inch of rain to fall during the day. The weather bureau reported that the rainfall was 37-100 of an inch. Some members of the Rainbow division suggested that \$15,000 was the pot of gold sometimes mentioned as being buried at the end of the rainbow.

Every train arriving today brought many arrivals of the legion.

Philadelphia sent 125 members in three box cars, painted as the "Hommes Forts" of France "Hommes Forts Cheveaux-S."

In London men are clamoring for admission to women's clubs. Why not, now that equal suffrage has come in almost a world wide way? Why keep up any bars?

The farmer who has been watching the fluctuating grain markets of the past two weeks is more than ever convinced that the old law of supply and demand is far from being the only factor in influencing the markets.

People inclined to pool at the theory that the reds have designs on the government of this country should take note of a Chicago instance. There a raid on the headquarters of a red organization gave proof that more than \$15,000 had been spent for propaganda in one month's time in the Chicago district.

Col. Milton J. Foreman is being enthusiastically supported for national commander of the American Legion. Illinoisans know that he is qualified for this important post and will use their best efforts to have his claims recognized at the Cleveland convention.

Now the national coal association has given the chering news to consumers that no one will suffer for fuel this winter if the public avoids panicky demands. The advice has been given before, but it is worth repeating. Just now a consumer who insists on putting in all of his winter supply of coal is adding to the difficulty of the situation and is not aiding himself.

People may look upon the future with some uncertainty and may be curtailing their expenditures. This, however, certainly does not apply to amusements, for figures show that Americans today are spending nearly \$800,000,000 a year for theatre admission. This is just one form of amusement and other figures show that the total annual amusement bill of the U. S. is near the \$5,000,000,000 mark. It is the tax books of the internal revenue department that make these statistics available.

Various straw ballots are being taken, with reference to the national campaign, all of which have little bearing on the result. But it is really very interesting to hear of the number of those aligned with the Democratic party who have no hesitancy in saying that they intend to vote for enator Harding in this election. The percentage is so great in "these parts" that it looks like the biggest Republican land slide on record.

Theodore H. Price in the World's Work for October says: "Upon the theory that the average American family consists of five persons, the increase of \$1,500,000,000 in railway revenue will be distributed at an average rate of \$75 per family, and the probability is that the average increase will be a good deal in excess of \$75 per family, unless by a reduction in consumption or buying the per family expenditures in the United States should be cut by an average of \$75 or more.

DEMOCRATS AND THEIR FUNDS.
"The Democrats need money," says the New York Times which is second only to the New York World as an exponent of the principles and policies of the Democratic party. It then proceeds to assert that funds are needed to put a true understanding of the League of Nations issue before the country; to send out speakers of national reputation who clearly understand the League covenant, and to make the truth about the League known to every voter.

The admission that the Democrats need funds is practically an admission of the failure of the Democratic administration. If Wilson's seven years of rule had been even measurably satisfactory to the people of the United States there would not be the slightest difficulty in raising all the funds the Democratic National Committee could spend for legitimate purposes. The Democratic party has every advantage in securing campaign contributions. It has the vast army of civilian employees upon whom to levy an assessment; it has all these employees to use as indirect agencies for the collection of funds; it has all the power of the Government to hold as a club over large interests which would naturally be inclined to contribute to the support of the party in power if they had no special reason for directing their support to the opposition party.

The fact is that the Democratic administration has been so unsatisfactory to people of practically all classes—to small business as well as to large, to city residents as well as to farmers, to the money lender as well as to the money borrower—that there are few who feel any desire for the retention of the Democratic party in power.

Rippling Rhymes
By Walt Mason
Joy Riders.
I'm seated in my figtree's shade, beside the public highway,

and flies assail me unafraid—which is the silly fly way. And all day long the autos scoot, in heedless haste before me; and all day long they honk and hoot, and throw the gravel o'er me. In luxury the riders bask upon the seats of satin; "Does no one ever work?" I ask, in Choctaw, Greek and Latin. Old age is riding there, in sooth, in limousines that glitter, and at the wheel is guided youth—and I'm the only quitter; for now and then I park my motor and strive to earn a dollar—a scheme from reason so remote that all the passers holler. Oh, all the autos travel forth, I hear their motors sizzling; they journey south, they scamper north, and east and west they're whizzing. The roads are black with fine sedans, and all the world is playing, except some tinhorn also-rans who labor at their haying. The roads are black with limousines, on idle errands going, and wilted are the useful beans—there's none to do the hoiing. The world is busy blowing kale, and thrift's a thing to banish; "Does no one ever work?" I wail, in German, French and Spanish.

A number of Poland China hog breeders met in the office of the county farm advisor Monday evening and made preliminary plans for a combination hog sale. The date set for the sale is October 29, which is the day before the Pig club sale and "w."

Harry E. K. was selected chairman of the meeting and others present were: Levi Berryman, W. W. Carter, Wallace Carter, Jacksonville, Nelis Crain, Bert Fitzsimmons, Woodson, T. M. Crum Litterberry, Harold Joy, Lester Reed, Ernest Wilson, C. J. Wright, J. L. Henry and G. B. Kendall.

Plans for the show were discussed in detail by those present. It has not been definitely decided where the sale will be held but it will be in a desirable and convenient location.

The sale will be limited to sixty hogs and there will be two females for every male hog. Morgan county has some of the finest hogs to be found anywhere and no doubt some desirable stock will be offered at this sale.

The following committees were appointed for the sale and will have charge of the preliminary work.

AGED RESIDENT OF WINCHESTER IS DEAD

Mrs. Jane Richardson Passed Away After Few Hours' Illness—Funeral Services Wednesday Afternoon—Other News from Winchester.

Winchester, Sept. 27.—The community was shocked Sunday morning to learn of the sudden death of Mrs. Jane Richardson, wife of the late Thomas Richardson, who with the usual work Saturday and in the afternoon drove to Jacksonville with her daughter, Mrs. Welch and husband. That evening was spent at the home of a neighbor and the return home was at 9 o'clock. About 11 o'clock Mrs. Richardson was unconscious, having suffered a paralytic stroke. She remained in that condition until Sunday morning when death came.

The deceased was a highly respected resident of the community, a member of the Methodist church, of many years' standing. She was devoted to family, home and friends, and had a great interest in outside affairs, especially the church and the Rebekah lodge, her husband having for years been in Odd Fellow.

Mrs. Richardson was born Feb. 1, 1846, at Teasdale, Eng. In early womanhood she was married to Mr. Richardson and came to this country on Oct. 24, 1870. To this union were born ten children, all of whom survive: George Richardson of Canton; Mrs. John Joultais, Winchester; Miss Jennie Richardson, Pittsburg, Kans.; T. C. Richardson, Canton; Mrs. Alice Hastings, Milo, Wyo.; George Richardson, Roodhouse; Fred Richardson, Peoria; Mrs. Flo Hastings, Milo, Wyo.; Mrs. Hardin Young, Glasgow; Mrs. Boone Welch, at home.

Funeral services will be held at 2:30 o'clock Wednesday afternoon from the Methodist church. The former pastor, Rev. C. W. Caseley of Petersburg, will officiate, and will be assisted by Rev. Mr. Corrie, the pastor of the church.

The family has the sympathy of the community in their sudden sorrow.

News Notes
Mr. and Mrs. William Evans and daughter Helen left Sunday for Greenville to visit relatives. Mrs. Pat Mehan and mother, Mrs. Morrissey of Nebraska, arrived Saturday night to visit at the home of Mr. and Mrs. Elmer Gill and other relatives.

Mr. and Mrs. Warren North now occupy the residence formerly occupied by Miss Ida Kincaid.

The committee for the federation of woman's clubs met Monday afternoon at the library to further consider plans for the meeting next month. It was found that arrangements were moving along satisfactorily and the indications are for a very successful and profitable gathering.

TWO REGISTRATION DAYS IN OCTOBER

October 12 and 26th Are Dates on Which Voters Register for November Election.

County Clerk G. L. Riggs yesterday called attention to the fact Oct. 12 and 26 will be registration days for the coming election. Under the law all persons who expect to vote are required to register. On the first day, Oct. 12 it will not be necessary to register in person and the officials will meet at the various polling places and make up the list of voters from available records.

If the name of a voter is not listed on the first date it will be necessary to register in person on October 26. The registration rules of course apply equally to both men and women.

MANY A PRETTY FACE SPOILED BY PIMPLES

Unsightly Disfigurements Tell of Impure Blood
Don't close your eyes to the warning which nature gives, when unsightly pimples appear on your face and other parts of the body.
Not only are these pimples and blotches disfiguring, but they lead to serious skin diseases that spread and cause the most discomforting irritation and pain. Sometimes they forestall Eczema, boils, blisters, sealy eruptions and other annoyances that burn like flames of fire, and make you feel that your skin is ablaze.
When these symptoms appear on any part of the body, take prompt steps to rid the blood of these disorders. And the only remedy which has no equal as blood cleanser is S. S. S., the purely vegetable blood medicine which has been on the market for more than fifty years. It is sold by druggists everywhere.
If you are afflicted with any form of skin disease do not expect to be cured by lotions, ointments, salves and other local remedies as they cannot possibly reach the source of the trouble, which is in the blood. Begin taking S. S. S. today and write a complete history of your case to our chief medical adviser who will give you special instructions, without charge. Write at once to Medical Director, 608 Swift Laboratory, Atlanta, Ga.

In London men are clamoring for admission to women's clubs. Why not, now that equal suffrage has come in almost a world wide way? Why keep up any bars?

The farmer who has been watching the fluctuating grain markets of the past two weeks is more than ever convinced that the old law of supply and demand is far from being the only factor in influencing the markets.

People inclined to pooh at the theory that the reds have designs on the government of this country should take note of a Chicago instance. There a raid on the headquarters of a red organization gave proof that more than \$15,000 had been spent for propaganda in one month's time in the Chicago district.

Col. Milton J. Foreman is being enthusiastically supported for national commander of the American Legion. Illinoisans know that he is qualified for this important post and will use their best efforts to have his claims recognized at the Cleveland convention.

Now the national coal association has given the chering news to consumers that no one will suffer for fuel this winter if the public avoids panicky demands. The advice has been given before but it is worth repeating. Just now a consumer who insists on putting in all of his winter supply of coal is adding to the difficulty of the situation and is not aiding himself.

People may look upon the future with some uncertainty and may be curtailing their expenditures. This, however, certainly does not apply to amusements, for figures show that Americans today are spending nearly \$800,000,000 a year for theatre admission. This is just one form of amusement and other figures show that the total annual amusement bill of the U. S. is near the \$5,000,000,000 mark. It is the tax books of the internal revenue department that make these statistics available.

Various straw ballots are being taken with reference to the national campaign, all of which have little bearing on the result. But it is really very interesting to hear of the number of those aligned with the Democratic party who have no hesitancy in saying that they intend to vote for Senator Harding in this election. The percentage is so great in "these parts" that it looks like the biggest Republican land slide on record.

Theodore H. Price in the World's Work for October says: "Upon the theory that the average American family consists of five persons, the increase of \$1,500,000,000 in railway revenue will be distributed at an average rate of \$75 per family, and the probability is that the average increase will be a good deal in excess of \$75 per family, unless by a reduction in consumption or buying the per family expenditures in the United States should be cut by an average of \$75 or more."

DEMOCRATS AND THEIR FUNDS. "The Democrats need money," says the New York Times which is second only to the New York World as an exponent of the principles and policies of the Democratic party. It then proceeds to assert that funds are needed to put a true understanding of the League of Nations issue before the country; to send out speakers of national reputation who clearly understand the League covenant, and to make the truth about the League known to every voter.

The admission that the Democrats need funds is practically an admission of the failure of the Democratic administration. If Wilson's seven years of rule had been even measurably satisfactory to the people of the United States there would not be the slightest difficulty in raising all the funds the Democratic National Committee could spend for legitimate purposes. The Democratic party has every advantage in securing campaign contributions. It has the vast army of civilian employees upon whom to levy an assessment; it has all these employees to use as indirect agencies for the collection of funds; it has all the power of the Government to hold as a club over large interests which would naturally be inclined to contribute to the support of the party in power if they had no special reason for directing their support to the opposition party.

The fact is that the Democratic administration has been so unsatisfactory to people of practically all classes—to small business as well as to large, to city residents as well as to farmers, to the money lender as well as to the money borrower—that there are few who feel any desire for the retention of the Democratic party in power.

Rippling Rhymes By Walt Mason

Joy Riders. I'm seated in my figtree's shade, beside the public highway,

and flies assail me unafraid— which is the silly fly way. And all day long the autos scoot, in heedless haste before me, and all day long they honk and hoot, and throw the gravel o'er me. In luxury the riders bask upon the seats of satin; "Does no one ever work?" I ask, in Choctaw, Greek and Latin. Old age is riding there, in sooth, in limousines that glitter, and at the wheel is gilded youth—and I'm the only quitter; for now and then I park my boat and strive to earn a dollar—a scheme from reason so remote that all the passers holler. Oh, all the autos travel forth, I hear their motors sizzling; they journey south, they scamper north, and east and west they're whizzing. The roads are black with fine sedans, and all the world is playing, except some tin-horn also-rans who labor at their haying. The roads are black with limousines, on idle errands going, and wilted are the idle beans—there's none to do the hoiing. The world is busy blowing kale, and thrift's a thing to banish; "Does no one ever work?" I wail, in German, French and Spanish.

TRADE AVENUES TO BE REVISED

Made Necessary Because Changing Boundaries—Ptolemy and Batum Promise to Become Important Centers.

Constantinople.—Owing to the general revision of boundaries of nations in the Balkans and other parts of the Levant, it is expected that trade avenues between the near East and western Europe and the Americans will be revised in a manner that will benefit the western nations that stand ready to meet the new conditions.

In the opinion of most experts familiar with the commercial conditions in the Levant there must inevitably be a greater proportion of shipping direct from points of production to Black Sea ports than has existed during the war. In other words manufacturers will get into direct touch with merchants in big distribution centers

and eliminate the middleman and the trans-shipment in Constantinople to a considerable extent. The limited and unsatisfactory docking facilities in Constantinople and the prices demanded of the lighterage trust and shipping agents dominated by various European governments are regarded as making this imperative.

Admiral Mark Bristol, the American high commissioner recently visited Bulgaria and is much impressed by the thrift and industry of the Bulgarians and the skillful way in which they have cultivated all their land in an effort to throw off the bad effects of the war. He believes that Varna and Bourgas are destined to become much more important because of the intelligence and industry of the Bulgarians.

Odessa, in the opinion of many students of Black Sea commerce, will never again be as important relatively as it was before the war. If Bessarabia remains in hands of Rumania it is expected here that a tariff wall will go up which will prevent Odessa from controlling the trade of that rich area, as it did in the past.

The business of Sevastopol, Theodosia and other Crimean ports is comparatively small. Novorossisk, the grain shipping center for the rich farming districts owned by the Cossacks, has equipment for shipping petroleum in tanks; and is an export center for zinc ore, potash, oil cakes and many other products.

Poti and Batum, the two Georgian ports, afford an entrance to Persia and the entire Trans-Caspian area and are looked upon as centers which will eventually assume great importance because of their unlimited petroleum supply piped in from Baku. These two ports supply between 500,000 and 600,000 tons of managanese annually from the inexhaustible deposits near Kutais. Most of this went to Germany, although the United States and England took small quantities. In 1913 the United States received 126,796 tons of this Georgian manganese. These ports also ship much Circassian walnut and licorice root. The ore, coal and oil ports are the centers to which American shipping will more naturally turn for return cargoes.

PARIS WANTS OLYMPIC GAMES PERMANENTLY

Press of That City Starts Campaign to Locate There Permanently.

Paris. — Will Paris become the Olympic city of the future? Will the Olympic games be held in Paris every four years instead of taking place in various cities of Europe and America? Such is the question that is being discussed by the Parisian press and the suggestion that is being advanced by the Union of Sporting Federations in France.

The question of the attribution of the 1924 Olympic games should have been settled in Antwerp but owing to the large number of cities claiming the honor it was decided to delay the solution of the problem until the Lausanne Congress in June, 1921.

A press campaign by all the Paris sporting papers, and in which staid political papers like the Echo de Paris and the Avenir have joined, is being waged to prove that the moving about of the Olympic games from city to city and from country to country every four years is all wrong. The city should be chosen to replace Athens, they say. "What city is better qualified than Paris?" asks the Avenir.

If the present system of allotting the Olympic games to cities and not to countries is maintained every capital of every state in the union of the United States has a right to have its Olympic games as well as Antwerp, the newspapers argue.

"Make Paris the 'Olympic City' where every four years in a gigantic stadium, magnificent and permanent, athletes from all parts of the world would compete in it. It would then be possible to give to the games, the character, the beauty, the splendor which they deserve." Such is the plea that will be sent by the Union of Sporting Federations of France, to Baron de Coubertin when the Olympic Congress meets at Lausanne.

WAR ACHIEVEMENTS
WIN LAND GRANTS
Courage and battle-achievements are to be rewarded with land-grants in Hungary. A government decree authorizes Admiral Horthy, as regent of the government, to bestow small tracts of land upon those distinguishing themselves in war or in the fight against bolshevism. The title to the land will descend to the eldest son.

Those honored by such grants will acquire, also, the right to prefix the title "Gallant" to their names and will be entitled to certain other privileges.

Several municipalities already have offered land for such purposes.

ARGENTINA HAS VACANCY LAW

BUENOS AIRES. — In case of death, incapacity or absence from the federal capital of the President of Argentina and subsequently, of the Vice President, the executive functions would be performed by a member of the cabinet in fixed order of precedence, according to a bill just passed by the Chamber of Deputies, called the "vacancy law."

This amends the previous law whereby the succession fell to the President of the Senate. The minister of interior takes first precedence.

The law would thus assure whoever succeeds as President would be a member of the administration, whereas under the existing procedure, it is possible for the succession to fall to a member of the opposition party.

Such a possibility, at present, is held to be responsible for the introduction of the law into the Chamber of Deputies by the radical party, which is President Irigoyen's. The death last year of Vice President Luna left the Presidency of the Senate vacant and a conservative majority in the Senate elected Dr. Benito Villanueva to preside over that body. Thus, if President Irigoyen should die, Dr. Villanueva would automatically become president.

Under the Argentine law, the President cannot leave the capital without the permission of Congress, in which case his functions devolve upon the Vice President until his return. At present if permission were granted, they would be performed by Dr. Villanueva. Critics of the President say that this the reason he has never asked for a vacation since the death of the Vice President.

Most of the newspapers doubt that the new law will be sanctioned by the senate, pointing out that the conservative majority

will hardly be willing to surrender the potential advantage which the situation gives them.

HINDUS INVITED TO AFGHANISTAN

New York, Sept. 27.—The Amir of Afghanistan, for the first time in history, according to Dr. N. S. Hardiker of the India Information Bureau here, has invited Hindus to settle in his country, to accomplish which he has announced the following royal concessions said to indicate a movement for the unification of the people of Asia.

1. Non-interference in the observance of Hindu religious belief; 2. Freedom of Hindus to travel and settle in any part of the country; 3. Government protection of Hindu homes; 4. Hindu representation in the Afghan Assembly; 5. Unrestricted travel permitted Hindu women.

There are more than 230,000,000 Hindus and 70,000 Moslems in India and a hijrat, or exodus of many of the latter to Afghanistan, according to Dr. Hardiker, already is under way.

"The proposals of the Amir are aimed," he said, "at dispelling the notion that Afghanistan is partial to Islamism. The proclamation clearly shows the all freedom and protection will be exercised in religious observances of the Hindus, however much these may differ from the beliefs of the Mohammedans and Afghans. The Amir undoubtedly is endeavoring to promote a better feeling between Afghanistan and India."

Says Dreco Relieved All Pain and Restored Him to Health and Happiness.

"My body and nerves had been racked to pieces by the excruciating pains of rheumatism for years and I had reached the point where I felt like I couldn't stand it much longer when a friend recommended Dreco," said Mr. G. W. Patterson, a well known and prosperous farmer living at Metamora, Ill., 19 miles from Peoria.

"The pain was so great that I couldn't find a comfortable spot in the bed, but rolled from one side to the other always hoping to find comfort. Many a night I was so tortured by pain that I couldn't close my eyes and my back felt like it was going to break. I couldn't bend over and had great difficulty in moving around. Loss of sleep and pain played havoc with my nerves and I was really in bad shape when a friend persuaded me to try Dreco and I am never going to forget that it was thru him that I regained my health."

"I can now stoop and bend without a pain, nerves are steady so that I get sound refreshing sleep and awake full of energy and ready for a good day's work. I am glad to pass the good word along to any one who has rheumatism. My advice is to take Dreco."

All druggists now sell Dreco and it is being especially introduced in Jacksonville by Coover Drug Co.—Adv.

TRADE AVENUES TO BE REVISED

Made Necessary Because Changing Boundaries—Ptole and Batum Promise to Become Important Centers.

Constantinople.—Owing to the general revision of boundaries of nations in the Balkans and other parts of the Levant, it is expected that trade avenues between the near East and western Europe and the Americans will be revised in a manner that will benefit the western nations that stand ready to meet the new conditions.

In the opinion of most experts familiar with the commercial conditions in the Levant there must inevitably be a greater proportion of shipping direct from points of production to Black Sea ports than has existed during the war. In other words manufacturers will get into direct touch with merchants in big distribution centers

and eliminate the middleman and the trans-shipment in Constantinople to a considerable extent. The limited and unsatisfactory docking facilities in Constantinople to a considerable extent. The limited and unsatisfactory docking facilities in Constantinople and the prices demanded of the lighterage trust and shipping agents dominated by various European governments are regarded as making this imperative.

Admiral Mark Bristol, the American high commissioner recently visited Bulgaria and is much impressed by the thrift and industry of the Bulgarians and the skillful way in which they have cultivated all their land in an effort to throw off the bad effects of the war. He believes that Varna and Bourgas are destined to become much more important because of the intelligence and industry of the Bulgarians.

Odesa, in the opinion of many students of Black Sea commerce, will never again be as important relatively as it was before the war. If Bessarabia remains in hands of Rumania it is expected here that a tariff wall will go up which will prevent Odesa from controlling the trade of that rich area, as it did in the past.

The business of Sevastopol, Theodosia and other Crimean ports is comparatively small. Novorossisk, the grain shipping center for the rich farming districts owned by the Cossacks, has equipment for shipping petroleum in tanks; and is an export center for zinc ore, potash, oil cakes and many other products.

Poti and Batum, the two Georgian ports, afford an entrance to Persia and the entire Trans-Caspian area and are looked upon as centers which will eventually assume great importance because of their unlimited petroleum supply piped in from Baku. These two ports supply between 500,000 and 600,000 tons of managanese annually from the inexhaustible deposits near Kutais. Most of this went to Germany, although the United States and England took small quantities. In 1913 the United States received 126,796 tons of this Georgian manganese. These ports also ship much circassian walnut and licorice root. The ore, coal and oil ports are the centers to which American shipping will more naturally turn for return cargoes.

PARIS WANTS OLYMPIC GAMES PERMANENTLY

Press of That City Starts Campaign to Locate There Permanently.

Paris. — Will Paris become the Olympic city of the future? Will the Olympic games be held in Paris every four years instead of taking place in various cities of Europe and America? Such is the question that is being discussed by the Parisian press and the suggestion that is being advanced by the Union of Sporting Federations in France.

The question of the attribution of the 1924 Olympic games should have been settled in Antwerp but owing to the large number of cities claiming the honor, it was decided to delay the solution of the problem until the Lausanne Congress in June, 1921.

A press campaign by all the Paris sporting papers, and in which staid political papers like the Echo de Paris and the Avenir have joined, is being waged to prove that the moving about of the Olympic games from city to city and from country to country every four years is all wrong. One city should be chosen to replace Athens, they say. "What city is better qualified than Paris?" asks the Avenir.

If the present system of allotting the Olympic games to cities and not to countries is maintained every capital of every state in the union of the United States has a right to have its Olympic games as well as Antwerp, the newspapers argue. "Make Paris the Olympic City" where every four years in a gigantic stadium, magnificent and permanent, athletes from all parts of the world would compete in it. It would then be possible to give to the games, the character, the beauty, the splendor which they deserve. Such is the plea that will be sent by the Union of Sporting Federations of France, to Baron de Coubertin, when the Olympic Congress meets at Lausanne.

WAR ACHIEVEMENTS WIN LAND GRANTS

Courage and battle-achievements are to be rewarded with land-grants in Hungary. A government decree authorizes Admiral Horthy, as regent of the government to bestow small tracts of land upon those distinguishing themselves in war on the fight against bolshevism. The title to the land will descend to the eldest son.

Those honored by such grants will acquire, also, the right to prefix the title "Gallant" to their names and will be entitled to certain other privileges. Several municipalities already have offered land for such purposes.

ARGENTINA HAS VACANCY LAW

BUENOS AIRES. — In case of death, incapacity or absence from the federal capital of the President of Argentina and subsequently, of the Vice President, the executive functions would be performed by a member of the cabinet in fixed order of precedence, according to a bill just passed by the Chamber of Deputies, called the "vacancy law."

This amends the previous law whereby the succession fell to the President of the Senate. The minister of interior takes first precedence.

The law would thus assure whoever succeeds as President would be a member of the administration, whereas under the existing procedure, it is possible for the succession to fall to a member of the opposition party. Such a possibility, at present, is held to be responsible for the introduction of the law into the Chamber of Deputies by the radical party, which is President Irigoyen's. The death last year of Vice President Luna left the Presidency of the Senate vacant and a conservative majority in the Senate elected Dr. Benito Villanueva to preside over that body. Thus, if President Irigoyen should die, Dr. Villanueva would automatically become president.

Under the Argentine law, the President cannot leave the capital without the permission of Congress, in which case his functions devolve upon the Vice President until his return. At present if permission were granted, they would be performed by Dr. Villanueva. Critics of the President say that this the reason he has never asked for a vacation since the death of the Vice President.

Most of the newspapers doubt that the new law will be sanctioned by the senate, pointing out that the conservative majority

will hardly be willing to surrender the potential advantage which the situation gives them.

PLAN TO RAISE FUND FOR PASSAVANT

Special Campaign From October 4th to 9th—\$30,000 Will Make Needed Improvements Possible.

The preliminary work of the Passavant hospital campaign for \$30,000 is well under way. The special campaign days run from Oct. 4 to 9, inclusive, and it is the expectation during those days to make a thorough canvass of the entire county. Organizations are forming for both city and county and the work will be done by townships. Passavant hospital is the property of the Protestant churches and is a community enterprise in which everybody has an interest. Before the campaign actually begins a full explanation of the purposes of the campaign will be made. It is proposed that the \$30,000 fund to standardize

the hospital with new equipment and more adequate facilities. The operating room will be rebuilt together with a diet kitchen, laboratory, sterilizing plant and laundry building. The last mentioned will have a considerable amount in the annual expenditure of the hospital. Laundry expense runs now from \$300 to \$400 a month and this expense can be materially reduced.

Next Friday, Oct. 1, at 12:30 noon, members of all the teams and others who have part in the campaign work will meet for luncheon at Centenary church and at this conference will talk over all final details of the campaign. The headquarters during the campaign will be maintained at the D. N. James Automobile Co. establishment on West State street.

CAR DEALERS HELD MONTHLY SESSION

Early Price Reductions on Most Cars Not Expected—Recent Cut Lowers Value of Used Machines.

The Jacksonville Automotive Dealers Association held its regular monthly meeting Monday night at the Dunlap hotel with practically its entire membership present. The meeting was presided over by a banquet, served under the personal direction of Manager John Rule and was thoroughly enjoyed.

The principal subject of discussion naturally was the recent announcement of Henry Ford that his cars had been reduced, and the effect that this might have on the business in general. It was the unanimous opinion, based upon labor and material markets and upon information received by the various dealers from their manufacturers, that reductions on automobiles to any material extent could not be made for some little time yet. That there must be reductions sooner or later was inevitable, but that it could not come while labor was high and such materials as steel continued scarce. The recent reduction announced it was seen would have an immediate effect which would be the lessening of the market value of used cars and would be a long step toward the time when the owner of a used car desiring to sell would have to find his own buyer.

The automotive dealers association in Jacksonville has been in existence for about one year and its members feel that much good has been accomplished in the way of promoting good feeling and friendship among the dealers and in putting the automobile business here upon a sound basis.

The meeting Monday night was an enthusiastic one and it was felt that after election all lines of business would move forward in Jacksonville in a manner before unknown. Chester Joy was elected a member of the board of directors.

The members decided unanimously to continue the association another year.

The Advice of This Jacksonville Woman is of Certain Value

Many a woman's back has many aches and pains. Oftentimes 'tis the kidneys' fault. That's why Doan's Kidney Pills are so effective. Ask your neighbor.

Many Jacksonville women know about this.

Read what one has to say about it:

Mrs. M. J. Scovill, 902 Hackett Ave., Jacksonville, says: "Two years ago I was down with my back and it was a job for me to get thru with my housework. I also had blinding, dizzy spells, and my kidneys acted irregularly. I heard Doan's Kidney Pills were good, so I tried them. Since then I have had no kidney trouble."

SIX-POUND WEIGHT GAIN IS DERIVED BY USE OF TRUTONA

Peoria Resident Says Perfect Tonics Put His System in Shape to Do Work of Young Man

Peoria, Ill., Sept. 27.—"I know there are hundreds of people who are suffering from the same troubles I did and if Trutona relieves mine, I know it will do the same for others; that's why I'm glad to publicly recommend this wonderful medicine," Robert Paul, a Peoria resident of 302 Maple street, told the Trutona representative a few days ago.

"I had suffered from stomach and kidney trouble, and my system generally had been run-down for so long, that I was almost forced to give up the fight," he continued. "I could eat nothing that would agree with me, and my liver didn't function properly. I was subject to very severe headaches. Instead of getting better, as time went on, my troubles seemed to be increasing and getting worse."

"On one of the many benefits I've received from Trutona, is a six-pound gain in weight, and that's not all, for although I'm fifty-five years old, I'm doing the work of a young man today. I can eat anything I care for now, and the food agrees with me. My former headaches are a thing of the past and my liver is in good working order now. I'm sleeping eight and ten hours regularly these nights too."

"I have tried most everything going but I have never found anything in the way of medicine, that would compare with Trutona."

Trutona is sold in Jacksonville by Coover Drug Co., J. F. Shreve Drug Co., and also Waverly at Drug Co., an also Waverly at Wyle Drug Co.—Adv.

BLACKBURN FARM SOLD AT AUCTION

One Hundred and Eighty Acres Purchased by Rexroat, Clark and Garland—Personal Property Also Sold.

The public sale at the Edmund Blackburn farm six miles northwest of the city attracted a large crowd Monday. The roads until early afternoon were not in good condition, but that fact did not interfere with the attendance.

The farm of 180 acres was sold to William B. Rexroat, E. L. Clark and F. J. Garland at \$133 per acre. Possession is to be given at a date not later than March 1. The auctioneers were Merle Beddingfield, C. Justus Wright and J. L. Henry. Mr. Blackburn sold most of his implements some years ago but disposed of the remainder yesterday prior to his removal to this city and occupancy of his home at 283 Sandusky street.

It is not usual for a man to live on one farm between sixty and seventy years but this was the case with Mr. Blackburn. It was in truth leaving an "old home" for him, but the difficulties of securing help on the farm these days made the change to Jacksonville advisable.

Mr. Wright in announcing the terms of the sale said that it had never been his privilege as an auctioneer before to announce such liberal terms and he made the statement that the farm was offered absolutely without reservation or "strings" of any kind and would be sold to the highest bidder. It was offered first in 80 and 100 acre tracts and then as a whole.

Messrs. Rexroat, Clark and Garland, all of whom are well known citizens, have operated together for several years in the purchase of real estate and quite successfully. They are well posted and evidently believe that the farm was well worth the money at the price they paid.

At the sale yesterday A. E. Williamson and Charles S. Black were the clerks. Lunch was served by the Ladies Aid Society of Ebenezer church and they made a goodly sum.

AN ACCEPTABLE GIFT.

When T. M. Tomlinson was in Philadelphia attending the meetings of the general assembly he became acquainted with a very pleasant man, a Rotarian from Tacoma. One day they were at dinner when fish was part of the menu and Mr. Tomlinson remarked on its excellence as it was from the near waters of the ocean. The westerner remarked that when he returned home he would treat his friend to a fine western fish and yesterday Mr. Tomlinson received by express a fine red salmon, dressed, packed in ice and weighing ten pounds, a gift from his Tacoma friend and much appreciated.

HELPED OUT TWO IN DISTRESS

Sunday evening L. F. O'Donnell, Carl Hodap and Levi Summers had an unpleasant experience playing good Samaritan to men in trouble. The first call was from Stanley Wright who had gone into the ditch with a car on Arnold Hill and the trio started out. As they neared the place Mr. and Mrs. John Buckley with two others along met them near Arnold and in trying to turn out for passing they went down. There was no chance to turn round and Mr. O'Donnell couldn't pull the car out by driving his machine backward.

Fortunately a toot, toot, like that of a locomotive was heard to the east and it proved to be George Imgrund, who thought for a moment he was yet a member of the park board and was trying to advance its interests. The situation was explained to him and with characteristic good nature he hitched O'Donnell's rope to his car and soon pulled Buckley & Co. out and they were able to proceed on their own power.

Then the O'Donnell force went on to Stanley and found him deep in the mud. It was raining hard and the task was no easy one. With tools and blocks the managed to raise Stanley's car out of the mud and it was able to go on after several efforts.

Mr. O'Donnell and his men were wet to the skin and their rubber boots were full of water and they were just about as uncomfortable as men could well be, but they did their duty and helped the men in trouble to get home.

PLAN TO RAISE FUND FOR PASSAVANT

Special Campaign From October 4th to 9th—\$30,000 Will Make Needed Improvements Possible.

The preliminary work of the Passavant hospital campaign for \$30,000 is well under way. The special campaign days run from Oct. 4 to 9, inclusive, and it is the expectation during those days to make a thorough canvass of the entire county. Organizations are forming for both city and county and the work will be done by townships. Passavant hospital is the property of the Protestant churches and is a community enterprise in which everybody has an interest. Before the campaign actually begins a full explanation of the purposes of the campaign will be made. It is proposed through the \$30,000 fund to standardize

the hospital with new equipment and more adequate facilities. The operating room will be rebuilt together with a diet kitchen, laboratories, sterilizing plant and laundry building. The last mentioned will save a considerable amount in the annual expenditure of the hospital. Laundry expense runs now from \$300 to \$400 a month and this expense can be materially reduced.

Next Friday, Oct. 1, at 12:30 noon, members of all the teams and others who have part in the campaign work will meet for luncheon at Centenary church and at this conference will talk over all final details of the campaign. The headquarters during the campaign will be maintained at the D. N. James Automobile Co. establishment on West State street.

CAR DEALERS HELD MONTHLY SESSION

Early Price Deductions on Most Cars Not Expected—Recent Cut Lowers Value of Used Machines.

The Jacksonville Automotive Dealers Association held its regular monthly meeting Monday night at the Dunlap hotel with practically its entire membership present. The meeting was presided by a banquet, served under the personal direction of Manager John Rule and was thoroughly enjoyed. The principal subject of discussion naturally was the recent announcement of Henry Ford that his cars had been reduced, and the effect that this might have on the business in general. It was the unanimous opinion, based upon labor and material markets and upon information received by the various dealers from their manufacturers, that reductions on automobiles to any material extent could not be made for some little time yet. That there must be reductions sooner or later was inevitable, but that it could not come while labor was high and such materials as steel continued scarce. The recent reduction announced it was seen would have the immediate effect which would be the lessening of the market value of used cars and would be a long step toward the time when the owner of a used car desiring to sell would have to find his own buyer.

The automotive dealers association in Jacksonville has been in existence for about one year and its members feel that much good has been accomplished in the way of promoting good feeling and friendship among the dealers and in putting the automobile business here upon a sound basis. The meeting Monday night was an enthusiastic one and it was felt that after election all lines of business would move forward in Jacksonville in a manner before unknown. Chester Joy was elected a member of the board of directors. The members decided unanimously to continue the association another year.

HELPED OUT TWO IN DISTRESS

Sunday evening L. F. O'Donnell, Carl Hodap and Levi Summers had an unpleasant experience playing good Samaritans to men in trouble. The first call was from Stanley Wright who had gone into the ditch with a car on Arnold Hill and the trio started out. As they neared the place Mr. and Mrs. John Buckley with two others along met them near Arnold and in trying to turn out for passing they went down. There was no chance to turn around and Mr. O'Donnell couldn't pull the car out by driving his machine backward.

Fortunately a foot, foot, like that of a locomotive was heard to the east, and it proved to be George Imgrund, who thought for a moment he was yet a member of the park board and was trying to advance its interests. The situation was explained to him and with characteristic good nature he hitched O'Donnell's rope to his car and soon pulled Buckley & Co. out and they were able to proceed on their own power.

Then the O'Donnell force went on to Stanley and found him deep in the mud. It was raining hard and the task was no easy one. With tools and blocks the managed to raise Stanley's car out of the mud and it was able to go on after several efforts.

Mr. O'Donnell and his men were wet to the skin and their rubber boots were full of water and they were just about as uncomfortable as men could well be, but they did their duty and helped the men in trouble to get home.

CITY COUNCIL MET IN REGULAR SESSION

Considerable Business of a Minor
Character Discussed—Licensing
of Carnivals Again Subject for
Consideration.

At its regular meeting Monday
evening the city council transacted
routine business and discussed
a number of other subjects.
Among these was the licensing of
carnival companies.

When the clerk called the roll
it showed all members present.
Mayor Crabtree presiding. The
reading of the minutes was de-
ferred until the next regular
meeting.

Resolution for Passavant.
A communication was read from
William Barr Brown and T. H.
Buckthorpe asking the council to
pass a resolution showing its sym-
pathy and moral support of the
coming campaign for Passavant
hospital.

The resolution was presented
and read by Ald. Cain and he of-
fered a motion which was seconded
by Ald. Flynn that the resolution
be adopted. The motion carried
by a unanimous vote.

Claims against the city were
presented and all the properly ap-
proved were ordered paid.

Ald. Moore wanted to have the
fire trucks varnished and was told
to ascertain the cost.

Ordinances for sidewalks on
Myrtle street and Ashland avenue
were given a second reading and
adopted.

City Will Release Property.
City Attorney J. A. Bellatti was
present and offered an ordinance
instructing the mayor and city
clerk to give a quit claim deed re-
leasing judgment against property
on South West street which it
holds thru the payment of paying
and sewer assessments.

The property is owned by John
R. Robertson and he wishes to
sell it and had notified the city at-
torney he would pay the delin-
quent assessments with interest.
Mr. Bellatti recommended that the
ordinance be passed. It carried an
emergency clause and was adopted
the emergency clause attached.

Lee A. Sullivan presented a bill
for the building of a private sewer
in West Chambers street. This
was in compliance with the ordin-
ance relative to the building of
private sewers. It was referred
to the sewer committee to investi-
gate and report at the next meet-
ing.

An ordinance fixing the mini-
mum fee for water to fifty cents
per month, was adopted with the
emergency clause attached.

The matter of a sewer in the
alley between the Odd Fellows
and Elmhurst buildings was
again discussed and it finally
was decided to defer action until
it was seen what the Cloverleaf
management would do.

Pavement Opening Permits.
The council then took up the
discussion of pavement opening
permits. The matter was discus-
sed from every angle and it was
the consensus of opinion that the
fees for different kinds of pavements
should be fixed in accordance with
the kind of work that must be
done.

However, it was the sense of
the council that no new pavements
should be opened for a period of
two years after they had been laid.
The mayor, engineer and superin-
tendent of streets agreed to draft
an ordinance covering the same
and have it ready at the next
meeting.

The question of license for
street fairs was again brought up.
The members of the council seem-
ed to be of one accord as to the
fee and thought it should be high
enough to keep most of the car-
nivals away entirely. The alder-
men had different ideas as to the
fee, ranging from \$300 to \$500
per week.

After this discussion the coun-
cil on motion adjourned.

SPANISH KING GOES HUNTING

King Alfonso Hunts Chamois in
Picos de Europa—Accom-
panied by Members of Royal
Family.

Santander, Spain.—No fatigue
or physical effort is too great for
King Alfonso when he decides to
go hunting the chamois in the
Picos de Europa, as he did this
year in August, after attending
the horse races and personally
steering his yacht to victory in
the regatta at San Sebastian.
This time, as an exception, he
was accompanied by a number
of women, who love hunting and
who are connected by family ties
with the royal house, as well as
by some of his personal sporting
friends.

The party included the Queen,
Princess Alice of Albany, the In-
fanta Luisa, Infante Carlos,
Infante Prince of Bourbon,
Prince Alfonso, the Marquis and
Marchioness de Viana, the Mar-
quis and Marchioness de Villar-
quitos, the Marquis de Villar-
quitos, and a number of court
functionaries of high rank.

The central point of the hunt-
ing is Pena Vieja, right in the
heart of the Picos, and to reach
the royal hunting box a very try-
ing three or four hours' horse-
back ride is necessary. The dis-
tance from Camaleño, where the
party mounts, is only 12 miles,
but the ascent is sharp all the
way and at places great care has
to be taken in passing along nar-
row paths looking over abrupt
precipices.

The site of the hunting box is
Llorza, at a height of 8,450 feet
above sea-level and here has
been built a miniature palace
containing many modern com-
forts. At night it is always cold
at this height and many of the
mountain peaks are covered with
eternal snow. Even during the
day cool winds are constant.

Activity is the watchword dur-
ing the King's short stay. Every-
body must have breakfasted and
be ready to start at seven in the
morning for the higher peaks
where the chamois is found. All
the hunters are provided with
ropes in case of danger in pass-
ing the deep precipices, on the
edges of which the chamois is
found. Great agility is requisite
once the game has been marked.
The small animals are usually
noticed at a long distance like
small black dots leaping from
point to point. Shooting has to
be extremely accurate and as a rule

many shots are expended on one
animal as he dashes headlong
among the rocks.

Sometimes a mountain mist
arises and then shooting is al-
most useless while it causes the
hunters to separate and often-
times to get lost in the moun-
tains, where parties of miners,
who are numerous in the district,
search for them.

However, Alfonso was this year
lucky as regards weather and
each day the royal party
brought back to the hunting box
on the backs of donkeys a con-
siderable bag of game.

Notwithstanding the strenuous-
ness of the day's work, the King
was always ready the following
morning to start out again at an
early hour sometimes, however,
leaving various members of the
party behind.

AMERICAN TRADE GROWING FAST

Shanghai.—Indication of how
swiftly American trade with
China is growing is to be gath-
ered from a semi-annual report
of declared exports from Shang-
hai to American in the first half
of this year, issued by the Amer-
ican Consulate here.

The total value of exports in
the six months was \$18,985,858
gold, an increase of \$15,307,067
over the same period last year.
Swift changes in values in the
past year and the fluctuations of
the rate of exchange are shown
by the trade in raw silk. In the
first six months of 1919, 2,889,
611 pounds of raw silk valued at
\$11,718,613 were shipped from
Shanghai. In the first six months
period this year the quality of
silk shipped dropped to 1,394,
613 pounds but the value
amounted to \$11,468,415.

Albumens, laces and embroid-
eries, rosettes, hair nets, pen-
cils and poodles and other
articles are the principal items of
the report.

Floyd H. Hull and Olin Steele
of Murrayville were visitors in
the city yesterday.

M. T. Woods of Waverly was
attending to business matters in
the city yesterday.

J. A. Hogan of Chapin spent
Monday in the city on business.

Mr. and Mrs. McConnell of

CITY COUNCIL MET IN REGULAR SESSION

Considerable Business of a Minor
Character Discussed—Licensing
of Carnivals Again Subject for
Consideration.

At its regular meeting Monday
evening the city council transacted
routine business and discussed
a number of other subjects.
Among these was the licensing of
carnival companies.

When the clerk called the roll
it showed all members present.
Mayor Crabtree presiding. The
reading of the minutes was de-
ferred until the next regular
meeting.

Resolution for Passavant.
A communication was read from
William Barr Brown and T. H.
Buckthorpe asking the council to
pass a resolution showing sym-
pathy and moral support of the
coming campaign for Passavant
hospital.

The resolution was presented
and read by Ald. Cain and he of-
fered a motion which was seconded
by Ald. Flynn that the resolution
be adopted. The motion carried
by a unanimous vote.

Claims against the city were
presented and all the properly ap-
proved were ordered paid.

Ald. Moore wanted to have the
fire trucks varnished and was told
to ascertain the cost.

Ordinances for sidewalks on
Myrtle street and Ashland avenue
were given a second reading and
adopted.

City Will Release Property.

City Attorney J. A. Belatti was
present and offered an ordinance
instructing the mayor and city
clerk to give a quit claim deed re-
leasing judgment against property
on South West street which it
holds thru the payment of paving
and sewer assessments.

The property is owned by John
R. Robertson and he wishes to
sell it and had notified the city at-
torney he would pay the delin-
quent assessments with interest.
Mr. Belatti recommended that the
ordinance be passed. It carried an
emergency clause and was adopted
the emergency clause attached.

Lee A. Sullivan presented a bill
for the building of a private sewer
in West Chambers street. This
was in compliance with the ordi-
nance relative to the building of
private sewers. It was referred to
the sewer committee to investi-
gate and report at the next meet-
ing.

An ordinance fixing the mini-
mum fee for water to fifty cents
per month, was adopted with the
emergency clause attached.

The matter of a sewer in the
alley between the Odd Fellows
and Etnie Brothers buildings
was again discussed and it finally
was decided to defer action until
it was seen what the Cloverleaf
management would do.

Pavement Opening Permits.

The council then took up the
discussion of pavement opening
permits. The matter was discus-
sed from every angle and it was the
consensus of opinion that the fees
for different kinds of pavements
should be fixed in accordance with
the kind of work that must be
done.

However, it was the sense of
the council that no new pavements
should be opened for a period of
ten years after they had been laid.
The mayor, engineer and superin-
tendent of streets agreed to draft
an ordinance covering the same
and have it ready at the next
meeting.

The question of license for
street fairs was again brought up.
The members of the council seem-
ed to be of one accord as to the
fee and thought it should be high
enough to keep most of the car-
nivals away entirely. The alder-
men had different ideas as to the
fee, ranging from \$300 to \$500
per week.

After this discussion the coun-
cil on motion adjourned.

"A year ago my stomach bloated so badly with gas that I fell unconscious and cut my head badly on corner of door. I had suffered from stomach trouble for several years and no medicine helped me to speak of. A druggist patched up my head and advised me to use Mayr's Wonderful Remedy for my stomach trouble. The results have been really wonderful. I have never had any sign of my former symptoms since." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. TERRIBLE TASTE

REMOVED FROM
CASTOR OIL

New Process Removes Old Reliable Family Remedy of Disagreeable Taste

The chemists of Spencer Kellogg & Sons, Inc., one of the largest manufacturers of castor oil in the world, have perfected a remarkable process by which all nauseating taste is removed from castor oil. In the opinion of physicians and druggists who are already familiar with Kellogg's Tasteless Castor Oil, this remarkable improvement is a real blessing. It's the same old fashioned castor oil that every physician prescribes. It's 100% pure castor oil. But that nauseating taste has been eliminated. Strength and purity remain the same. Today you can take Kellogg's Tasteless Castor Oil easily. Children take it without coaxing or bribing. Do not accept substitutes. Sold by all good druggists. If you want a castor oil absolutely without nauseating taste, insist on genuine laboratory filled bottles, plainly labelled Kellogg's Tasteless Castor Oil. Three sizes, 15c, 35c and 65c.—Adv.

DIZZINESS CAUSES FALL— HEAD INJURED

"A year ago my stomach bloated so badly with gas that I fell unconscious and cut my head badly on corner of door. I had suffered from stomach trouble for several years and no medicine helped me to speak of. A druggist patched up my head and advised me to use May's Wonderful Remedy for my stomach trouble. The results have been really wonderful. I have never had any sign of my former symptoms since." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Adv.

WHITE SOX SHUTOUT DETROIT, SCORE 2-0

Dick Kerr Pitched a Wonderful Game, Not Allowing a Man to Reach Third Base—It Was Chicago's Tenth in Eleven Games.

Comiskey Park, Chicago, Sept. 27.—With "Little Dick" Kerr pitching masterly, the White Sox continued their victorious march in the American League pennant race, defeating Detroit 2 to 0 today in the final game of the season here. The victory was Chicago's tenth in eleven games.

Kerr did not allow a man to reach third base. Daus also pitched splendidly, allowing only one hit up to the sixth inning. After hitting Weaver in the sixth however, Eddie Collins and Joe Jackson knocked out long singles which coupled with a poor return by Ty Cobb, gave Chicago its only runs. Outside of the sixth only one Chicago player reached third. Weaver singled in the eighth and advancing to third when Almsmith threw wide.

HANNIBAL MULES' EARS KNOCKED DOWN

Indees Take Kick Out of Missouri Visitors in First Inning—Hamm Held Visitors Safe and Had Fine Support.

The ears of the Hannibal Mules were knocked down by the Indees at South Side Park Sunday afternoon. The visitors came touted as having some kick but all the kick was taken out of them in the first inning when the locals scored eight runs, putting the game on ice.

We don't know who told the Hannibal boys they could play ball, but it must have been someone who is not familiar with the game. They might be considered a good team when playing with some of the aggregations around Hannibal but they hardly class with the Indees.

Ira Fanning was scheduled to hurl for the Indees but the street car wreck in the west part of town delayed him until the game had started. Hamm took up the work and had no trouble in holding the Mules in check.

During the game he allowed six hits, walked one man and hit one. He struck out six. In addition to pitching a good game, Hamm was given great support, not an error being made behind him. DeFrates did especially good work. He accepted seven chances without a blemish, one being a fine catch of a foul ball in left field. Cap Denny only had one chance during the afternoon, but it was a sizzler, a line drive from Bird's bat in the seventh.

Harry Clark caught a good game and kept the inner works "pepped" up during the afternoon. Decker and Christopher also fielded well.

How the Runs Were Made.
The Indees after disposing of the Mules in order, started to work. Denny struck out, but Wheeler was safe when Hawker booted his grounder. John Wright hit the first ball to left field for a single, taking second on the throw to catch Wheeler at third.

Clark immediately "squeezed" Wheeler over with the first run. Wright taking third. Scott singled to center, scoring Wright. He took third when Hoeker threw DeFrates' roller past Brown, the latter going to second on the error.

Christopher singled to center, scoring Scott and DeFrates. He stole second and scored on Riggs' single to left. Riggs stole second and Hamm walked. Riggs scored and Hamm took third on Denny's single to center. Denny took and on the throw to the plate, Wheeler singled and Hamm and Denny scored. Wheeler taking second on the throw-in. Wright ended the agony by going out, Hoeker to Brown.

DeFrates' double. Buckner's muff of Christopher's line drive and Riggs' double scored two in the second.

Wright's single and stolen base and errors by Hawker and Coursey added three runs in the sixth.

Scott hit one into the automobiles in left field in eighth and it was turned into a home run when the left fielder collided with an automobile and was knocked out.

The Mules' one run came in the third on McBride's single and Bird's double. The score:

BROOKLYN CHAMPIONS OF NATIONAL LEAGUE

New York's Defeat by Boston in Second Game of Double Header Put Them Out of the Running—Dodgers and Giants Each Have Four Games to Play.

NEW YORK, Sept. 27.—Brooklyn won the championship of the National League today, altho idle as a result of New York being defeated by Boston in the second game of their double header.

New York's last chance to even the Brooklyn slipped away with the loss of the second game, each now has four games to play and if the Giants win all and Superbas lose their remaining games the final standing will be:

	Won	Lost
Brooklyn	90	64
New York	89	65

All three leaders in the American race won today. Cleveland, which has a half game lead over Chicago has six games to play and if the Indians win half of them the White Sox must win three of their remaining games with St. Louis to get first place.

While it is mathematical possible for New York to pass Cleveland, the Yankees can only tie Chicago. The local team has two games to play and by winning them while the two western teams lost all their contests, New York would be on even terms with Chicago and a game ahead of Cleveland. A victory by the White Sox or a defeat for the Yankees will put the eastern team out.

PETTY, LISTEN HARD!

When it's your good luck to butt into Buffalo, go to that store on Ellicott Square where the dark haired clerk slips out Camels with both hands—plus a tank of talk on the side!

The thing that tickled me most was his sureness that I was after Camels! As soon as I had my coin on the counter and before I could say a word, he flashed me a package of Camels! When I asked him how he knew I wanted Camels, he took a pull on his laugh stock and soaked me with this:—"Can't tell you, old mayonnaise—I'm dressing!"

After he had waited on several other men who drew their Camels like I did, this salesman said:—"For a fact, most men here smoke Camels. They hit the popular taste! Camels have the right body and the right mildness and the right flavor! They're ALL right!"

And, Pete—he added this without a stutter: The more I see of the world and the more I learn about cigarettes, the more respect I have for Camels and Camels quality! I don't believe a better cigarette could be made at any price!"

And Pete—oh, Pete—listen to this gem:—"And it's an odds on bet I'm a good judge. I've tried 'em all—and my taste is the jury box!"

If that isn't a swell line of Camel talk, I'll sell my shoes! But, Peter, that salesman is right! It's my belief that no cigarette in the world can be favorably compared with Camels—they're so smooth and mellow and delightful!

I'm herewith slipping between the sheets, old and new book. So, you tell 'em the rest—you're so full of knowledge!

Sincerely

MAZZOLA

Many cooks can't make a light cake rich or a rich cake light

Using too much shortening is the cause of most failures in baking.

Mazola gives richness and avoids cogginess.

Because you use 1/4 to 1/2 less of Mazola for shortening than butter, lard or compounds.

This means more than economy. It means a rich cake—yet a light cake—easily digested. Crisp, flaky pie crusts are likewise

made with Mazola. Many an inexperienced housewife made her first successful pie crust when she tried Mazola.

Mazola is not an animal fat. It is a pure vegetable oil—from an edible source. It contains no moisture but is all fat—100%.

Once you try Mazola for making cakes and pie crusts you will never go back to butter, lard or compounds.

WHITE SOX SHUTOUT DETROIT, SCORE 2-0

Dick Kerr Pitched a Wonderful Game, Not Allowing a Man to Reach Third Base—It Was Chicago's Tenth in Eleven Games.

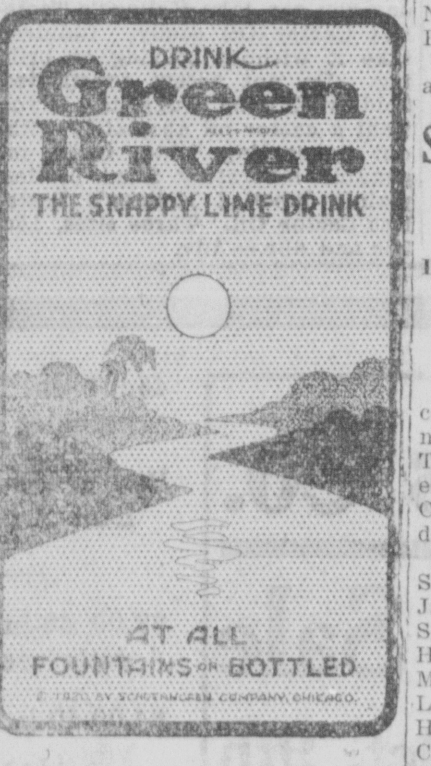

Comiskey Park, Chicago, Sept. 27.—With "Little Dick" Kerr pitching masterly, the White Sox continued their victorious march in the American League pennant race, defeating Detroit 2 to 0 today in the final game of the season here. The victory was Chicago's tenth in eleven games.

Kerr did not allow a man to reach third base. Dauss also pitched splendidly, allowing only one hit up to the sixth inning. After hitting Weaver in the sixth however, Eddie Collins and Joe Jackson knocked out long singles which coupled with a poor return by Ty Cobb, gave Chicago its only runs. Outside of the sixth only one Chicago player reached third. Weaver singling in the eighth and advancing to third when Almsmith threw wide.

HANNIBAL MULES' EARS KNOCKED DOWN

Indies Take Kick Out of Missouri Visitors in First Inning—Hamm Held Visitors Safe and Had Fine Support.

The ears of the Hannibal Mules were knocked down by the Indies at South Side Park Sunday afternoon. The visitors came tonight as having some kick but all the kick was taken out of them in the first inning when the locals scored eight runs, putting the game on ice.

We don't know who told the Hannibal boys they could play ball, but it must have been someone who is not familiar with the game. They might be considered a good team when playing with some the aggregations around Hannibal but they hardly class with the Indies.

Ira Fanning was scheduled to hurl for the Indies but the street car wreck in the west part of town delayed him until the game had started. Hamm took up the work and had no trouble in holding the Mules in check.

During the game he allowed six hits, walked one man and hit one. He struck out six. In addition to pitching a good game, Hamm was given great support, not an error being made behind him. DeFrates did especially good work. He accepted seven chances without a bobbie, one being a fine catch of a foul ball in left field. Cap Denny only had one chance during the afternoon, but it was a sizzler, a line drive from Bird's bat in the seventh.

Harry Clark caught a good game and kept the inner works "pepped" up during the afternoon. Wheeler and Christopher also held well.

How the Run Were Made. The Indies after disposing of the Mules in order, started to work. Denny struck out, but Wheeler was safe when Hawker booted his grounder. John Wright hit the first ball to left field for a single, taking second on the throw to catch Wheeler at third.

Clark immediately "squeezed" Wheeler over with the first run. Wright taking third. Scott singled to center, scoring Wright. He took third when Hoeker threw DeFrates' roller past Brown, the latter going to second on the error.

Christopher singled to center, scoring Scott and DeFrates. He stole second and scored on Riggs' single to left. Riggs stole second and Hamm walked. Riggs scored and Hamm took third on Denny's single to center. Denny took second on the throw to the plate. Wheeler singled and Hamm and Denny scored. Wheeler taking second on the throw-in. Wright ended the agony by going out, Hoeker to Brown.

DeFrates' double. Buckner's muff of Christopher's line drive and Riggs' double scored two in the second.

Wright's single and stolen base and errors by Hawker and Coursey added three runs in the sixth.

Scott hit one into the automobiles in left field in eighth and it was turned into a home run when the left fielder collided with an automobile and was knocked out.

BROOKLYN CHAMPIONS OF NATIONAL LEAGUE

New York's Defeat by Boston in Second Game of Double Header Put Them Out of the Running—Dodgers and Giants Each Have Four Games to Play.

NEW YORK, Sept. 27.—Brooklyn won the championship of the National League today, altho idle as a result of New York being defeated by Boston in the second game of their double header.

New York's last chance to even the Brooklyn slipped away with the loss of the second game, each now has four games to play and if the Giants win all and Superbas lose their remaining games the final standing will be:

Won	Lost
Brooklyn	90 64
New York	89 65

All three leaders in the American race won today. Cleveland, which has a half game lead over Chicago has six games to play and if the Indians win half of them the White Sox must win three of their remaining games with St. Louis to get first place.

While it is mathematical possible for New York to pass Cleveland, the Yankees can only tie Chicago. The local team has two games to play and by winning them while the two western teams lost all their contests, New York would be on even terms with Chicago and a game ahead of Cleveland. A victory by the White Sox or a defeat for the Yankees will put the eastern team out.

Summary.
Two base hits, DeFrates, 2; Riggs, Bird, Hawker; Home run, Scott; Stolen bases, Hawker, Denny, Wright, DeFrates, Christopher, Riggs; Struck out by Hamm, 6; by Fanning, 1; by Hoeker, 4; First base on balls, off of Hamm, 1; Hit by pitcher, by Hamm (Ford); Double play, Marcellus, unassisted; Sacrifice hit, Clark, Time, 1:55. MAZZOLA

Many cooks can't make a light cake rich or a rich cake light

Using too much shortening is the cause of most failures in baking.

Mazola gives richness and avoids soggyness.

Because you use 1/4 to 1/3 less of Mazola for shortening than butter, lard or compounds.

This means more than economy. It means a rich cake—yet a light cake—easily digested. Crisp, flaky pie crusts are likewise

made with Mazola. Many an inexperienced housewife made her first successful pie crust when she tried Mazola.

Mazola is not an animal fat. It is a pure vegetable oil—from an edible source. It contains no moisture but is all fat—100%.

Once you try Mazola for making cakes and pie crusts you will never go back to butter, lard or compounds.

The new Mazola Cook Book contains 64 pages of practical and tested recipes by expert cooks. Free. Write today, Corn Products Refining Co., P. O. Box 161, New York.

Rich, delicious, creamy, at half the cost of cream! And after the first morning you serve coffee with Libby's Evaporated Milk, your husband won't let you serve it with any other. He will notice its finer flavor at once—he will want it every time.

Now—every Jacksonville home can have this finer milk

Product of famous pasture lands sent here in sufficient quantity for everybody.

Libby, McNeill & Libby announce that they have now arranged to meet the demand from Jacksonville for their Evaporated Milk.

Produced, as this milk is, from only the very finest yield of the richest dairy lands, it has been impossible, heretofore, to supply all who wanted it.

Jacksonville women who have, heretofore, been fortunate enough to secure it, found it gave so much richer, so much more delicious flavor to their coffee, and to all their cooking, that they went to any trouble to get it.

They told other women about it, and the demand for Libby's Evaporated Milk has been so insistent that Libby has now made arrangements to supply all Jacksonville homes.

All grocers in Jacksonville now have or can get Libby's Evaporated Milk. Your grocer has it.

The difference this milk makes in coffee and in cooking

You will never realize what a difference the milk you use makes in coffee and in cooking until you begin to use Libby's Evaporated Milk.

You will be delighted.

Your coffee served with Libby's Evaporated Milk has so much more appetizing aroma, so much more character and flavor that you will never be satisfied with other milk or cream in coffee—after you have tried Libby's.

All your cooking will have a finer flavor that will make your family think you have learned some special new wrinkle in cooking—will make your guests exclaim over your cream vegetables, your hot breads, your puddings.

For Libby's Evaporated Milk has an individual flavor that gives a new and better taste to everything you use it in.

From famous pasture lands

For fifty years the Libby ideal has been to prepare all their products right where the finest of each kind was to be found. Their peach kitchens are in the sun-flooded valleys of the Golden West. Their pineapple kitchens in Hawaii. Their salmon kitchens in cold-bound Alaska.

Custards made with Libby's Evaporated Milk are smooth, firm and delicate—with an added, delicious flavor—that will make the children exclaim—"Oh, mother—this is good—what did you put in it?"

Have the delightful flavor of Libby's milk in all your milk desserts.

To establish their first condensery, Libby went to the finest dairying district of the United States—famous pasture lands where grazed the finest pedigreed cows, where generations of dairymen gave the cows and the milk the most perfect, the most intelligent care.

Here the new Libby condensery took only the finest of this fine milk, testing it constantly for richness, for purity.

And the demand for this noticeably finer milk has increased so rapidly that Libby has had to establish one condensery after another, each in the center of a rich milk country, each taking only the choicest milk.

Just the pure, rich milk

Nothing is added to this fine, rich milk, nothing is taken out of it, except more than half of its moisture. It is handled in an immaculate way, packed in harm-proof packages, and sterilized by a special Libby method, so it can reach your table as pure and fine as when it left the spotless Libby condensery.

This Libby method of sterilizing gives to their milk its delightful flavor—the flavor that makes its users prefer it to any other milk in coffee, in cocoa and in their cooking.

So convenient! So economical!

Every woman able to secure Libby's Evaporated Milk was enthusiastic about its convenience. It was always at hand and ready to use! It took up so little room!

And such an economy! Rich, delicious, creamy, at half the cost of cream! Milk to which there is no waste! It keeps pure and fresh until you open the can—then you use it as you need it; and the rest, put in a cool place, keeps for several days.

You, too, can have this finer milk now

Libby wants all women to have this milk that other women are so enthusiastic about. They have arranged to supply all Jacksonville housewives.

Begin using Libby's Evaporated Milk today. Have its creamy richness in your coffee, at half the cost of cream. Have it give your cooking finer flavor than it has ever had before.

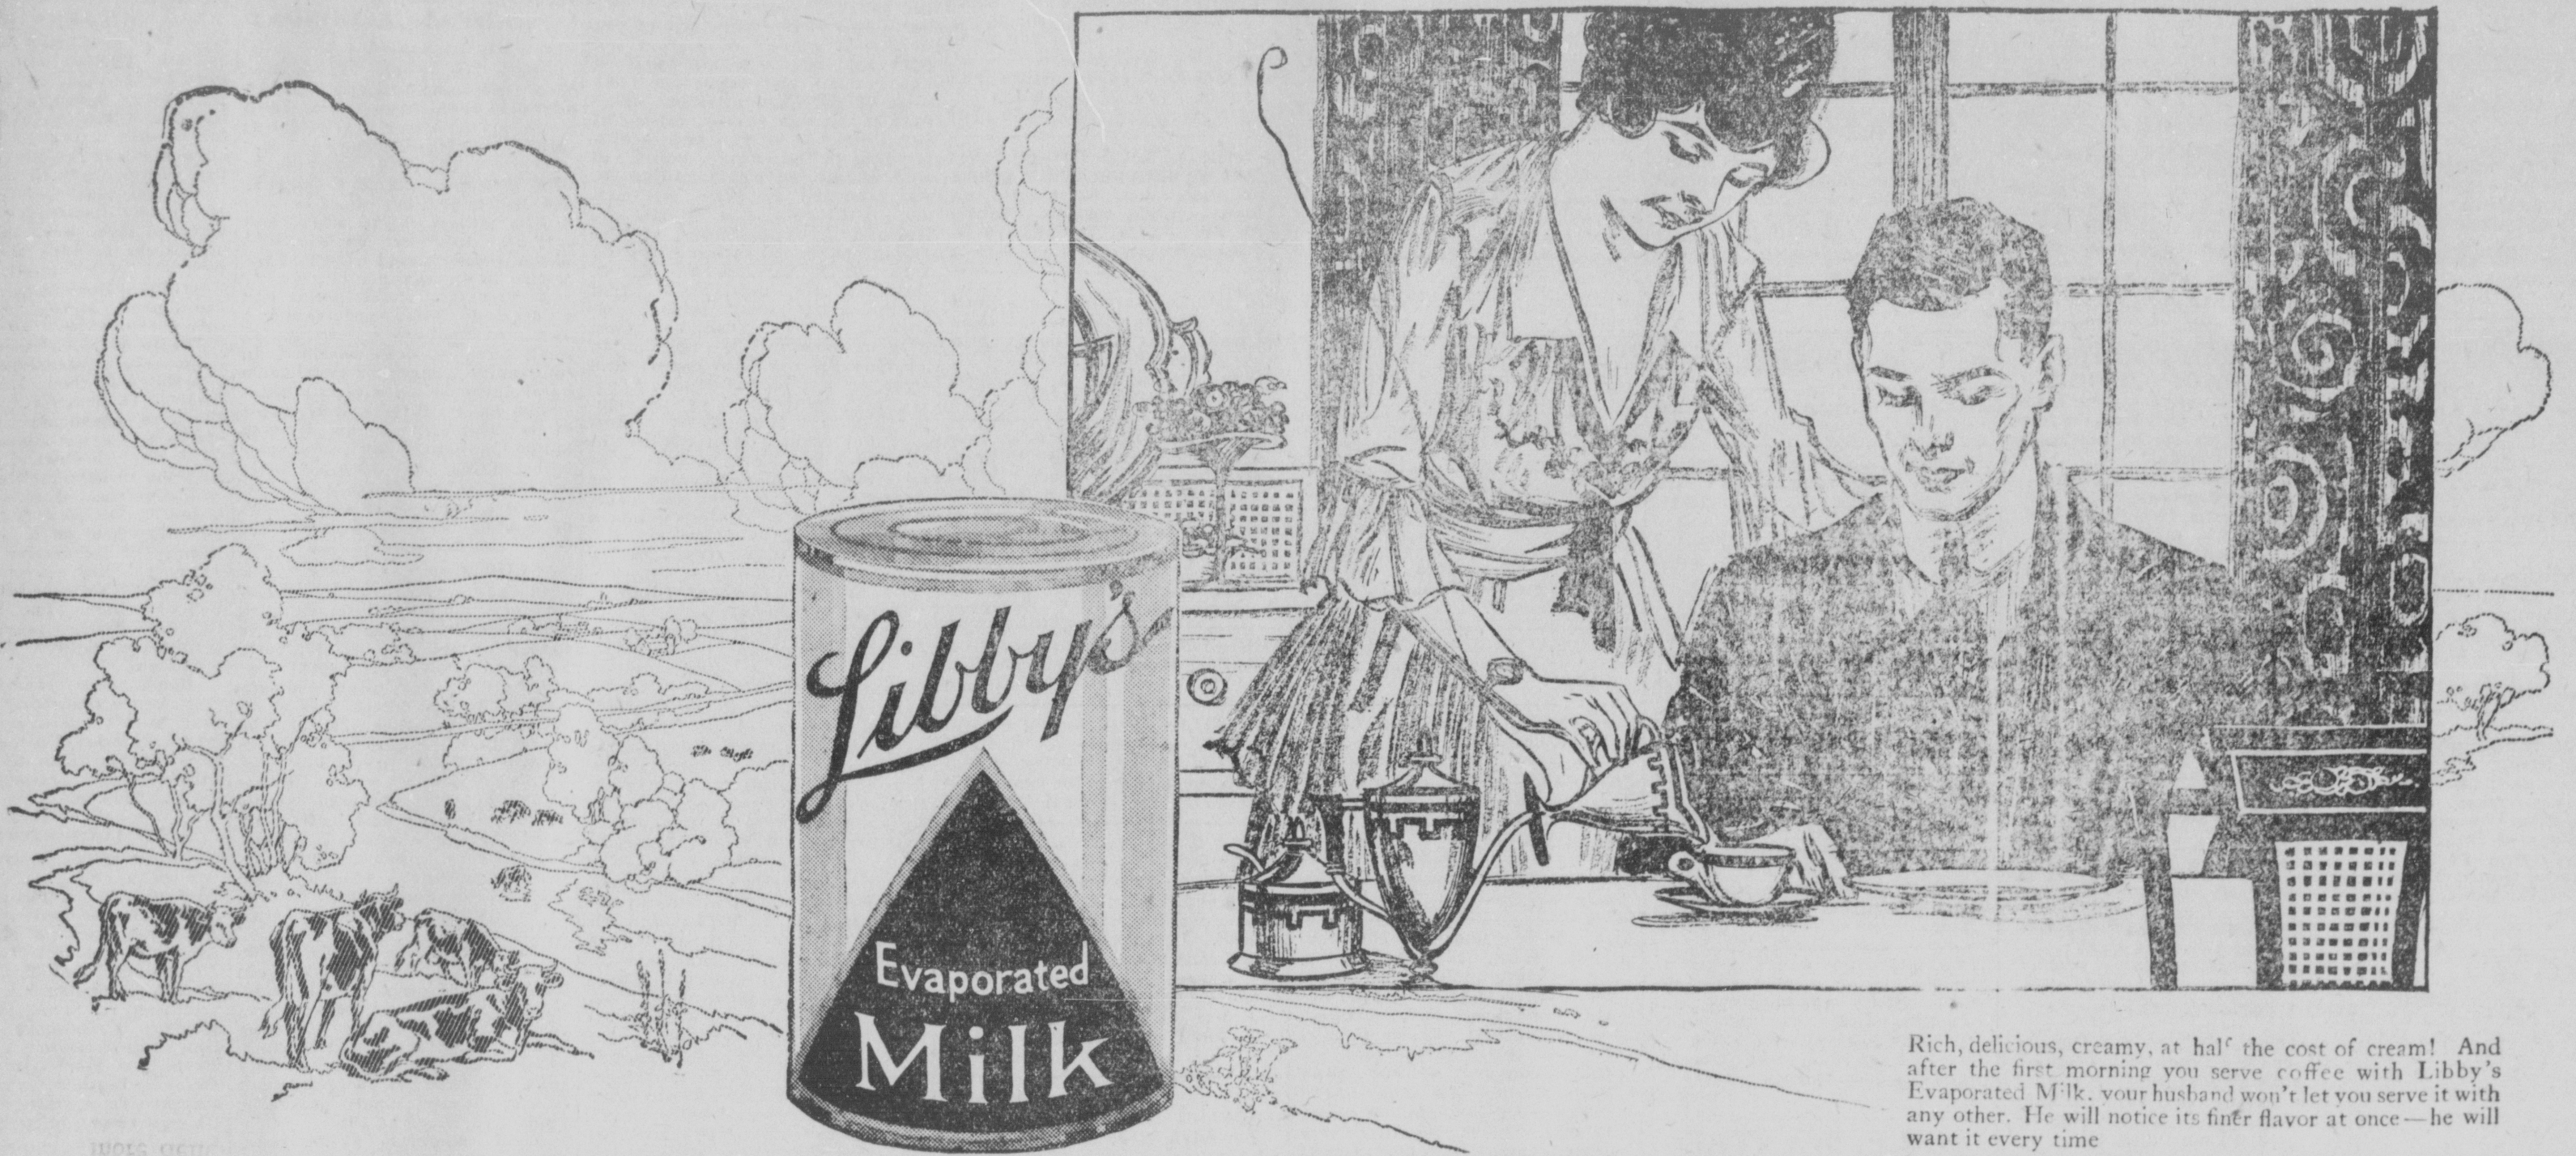

When your recipe calls for milk, use Libby's Evaporated Milk diluted with an equal quantity of water. Wherever it calls for cream, use Libby's Evaporated Milk undiluted.
